

Meeting Minutes – 2/26 4:00pm EGR 104

Attendance

Alex Kahn
Jesus Garcia
Tyler Mitchell
Ana Steinmacher
Taylor Walker

Upcoming Due Dates

Design Review II - 3/8

Agenda

Task Report Update

Minutes

Reviewing Design Doc

- Still missing some details in implementation
- Describe things more as technical language and less natural language
- Should be updating images in design doc to use for Design Review presentation

Design Review II

March 8

We will plan to do a dry run on March 5 during mentor meeting with Ana, should be complete presentation

TODO: Jesus will reserve a room appropriate for design review dry run

For review

- Have agenda of stuff left to do, show schedule, go through our requirements?

- These are our requirements list, go through these, not code but use the application. List requirements, describe implementation of it, then show the function in app.

Task Report

Our merge party

We merged in lots of completed work, got all local masters onto the same page, updated our Trello with tasks left to implement, came up with a game plan for the upcoming design review

Alex got Paypal checkout set up, will be implementing on-site payment this week, along with class-list editing

Taylor got a homework submission page set up with some links and CSS

Tyler got Facebook Login working with a developer test, not yet working for open accounts because application is still development mode. Tyler will be working with Jesus on workflow between images and videos.

Jesus researched some calendar sync stuff with Google, and figured out some requirements needed to implement it later. This coming week, Tyler and Jesus will be working on finishing video and image workflow

Alex and Taylor will be working on setting up for design review, doing the presentation, and prepping.
