Meeting Minutes – 10/24 6:30pm EGR 314

<u>Attendance</u>
Alex Kahn
Jesus Garcia
Tyler Mitchell
Taylor Walker
Rob Lokken

<u>Upcoming Due Dates</u>

<u>Agenda</u>
Review Tech. Feasibility
NDA Timeline

<u>Minutes</u>
Get Rob up to speed on feasibility
Reviewing storage prices
     We estimated him about 2Cents per video, using an average video time of 15 minutes

Look into calendar synchronization (Google Calendar?- its through users Email, and Wix's plugin handles the synchronization) on AWS (he might port over his whole site to it)
     Possible libraries/packages

-Images: they normally crop the question. Probably not that important for users to have access to the images. -> we could just auto-delete the images

Mobile Business Needs
     Web Portal (mobile-optimized) is the top priority
     Time willing, we will work on a mobile app to accompany
     -Possibly Cordova -> to take the web-app and convert it to Android/iOS app

NDA
     Will be tailored to our situation (pun intended), proprietary information may be shared in (and only in) an academic setting. Expect something soon

Requirements
     Rob will put together a list of functions necessary for each profile
     Will translate into requirements document

Assigned Tasks

Tyler - look into Cordova

Project Decisions

Notes
