Meeting Minutes – 4/9 4:00pm EGR 104

<u>Attendance</u>
Alex Kahn
Taylor Walker
Tyler Mitchell
Jesus Garcia
Ana Steinmacher

<u>Upcoming Due Dates</u>
Design Review 3 - 4/12
Testing Plan - 4/9
UGRADS Poster - 4/20

<u>Agenda</u>
Mentor-client meeting
Task Report

<u>Minutes</u>
Ana's meeting with Rob

Rob is cognisant of our timeline left, and what we can deliver. So he does not have unrealistic expectations about the project, but he is concerned about our front-end design. He wants a professional-looking product, and we need to move forward with the front-end design of the pages.

We will want to schedule a specific meeting with him during finals week to provide all the final documents, grading sheet for acceptance, and check-off sheets.

Task Report

Tyler will be able to finish reporting stuff within the week, and got images working with React, did some Webpack stuff with an image loader. Will be working on reporting, and will help with the poster. Will also look at dashboard design.

Taylor fixed his environment, and did a little CSS work. Will be working on page designs.

Alex can finish the filtering buttons for courses within the week. Will also work on a draft for the UGRADS poster. And finish up stripe integration. Will also work on finalizing team website, and have contact with Ana about it

Jesus is going to go over account for Amazon with Rob, and will integrate Image Upload, and help Alex with Stripe finalizing.

Design Review 3

Jesus and Ana went through the slides on what to update. We discussed who will take what sections, and some changes to make to content
